

In partnership with: Institute for Health System  
Transformation & Sustainability

## Type 2 Diabetes Network

Passionate change-makers uniting communities, healthcare providers, and partners across British Columbia to enhance type 2 diabetes supports.

The Type 2 Diabetes Network is a collaborative network working to build provincial capacity in prevention, management, and remission for type 2 diabetes.

Our goal is to engage patients and providers, develop partnerships, link communities, foster research, and support high quality care for type 2 diabetes.
